

Working together to reach new heights of
Quality Assurance for the Air Barrier industry.

Five Levels of Service

Level 1 (standard as part of the NABA Quality Assurance Program)

- Visual observations, adhesion (ASTM D4541), density and thickness (if applicable) testing
- Picture documentation
- Standard NABA audit report

Level 2

- Hygrothermal analysis
- Pre-tender detail and design review which could assist in achieving LEED points

Level 3

- Start-up meeting attendance, mock-up review and standard of acceptance

Level 4

- Weekly building envelope inspection
- Air leakage testing of windows/doors/curtain walls
- Whole building air leakage testing (ASTM E779, ASTM E1187, USACE Air Leakage Test Protocol for Building Envelopes, CAN/CGSB 149.15, ISO 9972)
- IR camera and smoke testing (ASTM E1186)

Level 5

- Warranty
 - \$150,000 warranty – 10 years
 - \$75,000 warranty – 5 years
 - \$25,000 warranty – 2 years
